Sub: Application for the position of Front-End Developer

Dear Sir,

"I'm a talented Fullstack Developer (MERN)". I am writing to express my interest in the Front-End Developer position you posted on Facebook. The role and the responsibilities listed in the job description match my interests and skills. I believe that my skills and experience make me a strong candidate for this position.

I have completed BSC in CSE from Northern University Bangladesh and have 2 years of experience as a Front-End Developer. I have gained extensive experience in HTML, CSS, Bootstrap, Tailwind, JavaScript, ReactJs, NextJs, Redux, Firebase, NodeJs, ExpressJs, Mysql, MongoDB, Postgres, AWS, VPS etc. I have the ability and experience to complete short-term and long-term projects.

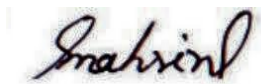

Now I will discuss one of my best projects HR Management Systems. I implement their attendance system, payroll, account, sales, client project details, assets, role-based authentication, etc.

I have read the job description. I noticed the friendly environment and other facilities that will help me work and develop my skills. I also need a good platform to explore my skills and knowledge. And it would be a wonderful opportunity for my career with a reputed organization like yours. I will get to learn so many things and want to be a part of a company where my skills could use effectively and gain better skills.

Thank you for your time and consideration. Looking forward to hearing from you and meeting you soon at the interview.

Expected Salary: 35K

Best regards,

Md. Mohsin Kabir
